

```
public class ListNode implements Linkable {  
  
    public ListNode()  
  
    public ListNode(Comparable value, ListNode next)  
  
    public Comparable getValue()  
  
    public ListNode getNext()  
  
    public void setValue(Comparable value)  
  
    public void setNext(Linkable next)  
  
}
```

```
public interface Linkable {  
  
    Comparable getValue();  
  
    Linkable getNext();  
  
    void setNext(Linkable next);  
  
    void setValue(Comparable value);  
  
}
```
